Join hands to grow together

Ever changing time has brought new opportunities in South East Asia. It is time for neighboring countries, sharing the national borders, to come together. Basket of products traded by neighboring countries has changed and expanded. Introduction of GST has removed cascading effects in the cost of trading to make West Bengal more competent. It has also brought all trading activities in main stream. Roll of traders is being given more weightage.

Since the last Trade Summit, 2018; CWBTA has extensively worked with some of the neighboring countries, signing several MOUs and visiting each other. This year's CWBTA-Trade Summit, 2019, therefore aptly being organized in partnerships with neighboring countries in order to look at the new trading opportunities emerging.

Summit aims to interact with the leaders of Partner Countries, on business opportunities, respective Exim policies, suggestions for ease of foreign trade, product basket, and many informative exchanges besides introductions to right businessmen to deal with.

Each partner countries will have individual pavilion so also stalls available for your organization. Considering limited space available, you are requested to book your stall at the earliest. You should also register yourselves as delegate and send us your proforma for advance circulation to visiting foreign delegation. Informative souvenir to be widely published and circulated in partner countries as reference book is also being published. Details of your participation costs are given herein.
